CENTER STREET 171ST ST. TO 159TH ST.

COOK COUNTY

**DEPARTMENT OF
TRANSPORTATION AND HIGHWAYS**

STRATEGIC TRUCK ROUTE IMPROVEMENTS

The Department of Transportation and Highways (DOTH) has targeted the Southland for strategic truck route improvements. Center Street improvements, in the City of Harvey, will increase capacity on this industrial truck route by providing turning and queuing lanes at key points along the corridor so that through traffic is not blocked.

PROJECT SCOPE

This project provides reconstruction of Center Street from 171st Street to 159th Street including complete removal and new construction of the roadway pavement, under and above ground facilities, and other elements within the right-of-way.

Project features:

- concrete pavement
- concrete curb and gutter
- drainage improvements
- water main construction
- traffic signal work at 171st St. and at 167th St.
- pavement markings
- landscaping

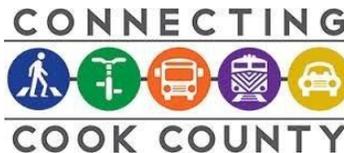

CONSTRUCTION SEASONS

To allow access to all businesses along the route as work proceeds, traffic will be detoured onto 171st Street, Halsted Street and 159th Street.
